

Correspondence of the Louisville Journal]

BUTTERFIELD, Aug. 22.

Dear Sirs.—I have just received

your letter, and will reply here-

to it as far as I can.

General Beauregard has still been disengaged,

but he has been engaged in some

service, and I am sorry to hear

that he will remain quiet while I

am engaged in my present service.

I am sorry to hear that he will be in the

Scoutsway valley about the time that it is

likely to be transformed into a valley of des-

truction, but I hope that he will be in a

position to do his duty in a more effective

manner than he has done in the past.

The Duke in *Messure for Measure* gives a bit

of advice applicable to Rotwang, which I

trust will be of great service to him.

"Let him be but disillusioned in his own

eyes, and he will be a statesman, and a soldier."

You have already published his report

of the recent battles in Virginia. We need

hardly say that the report was well done.

A judicious correspondent writes a word

to the effect that the rebellion will not be put down in a year. The only fit wager in the case is the battle of battle.

An article upon those who volunteered

for their country's defense and those who re-

quested well-lead "Patriots and Friends."

"We don't believe the negroes would

fight very well, but politicians have found

that he is a first-rate animal to fight about."

FRUIT FROM GEN. BUELL'S ARMY

[Correspondence of the Pittsburgh Gazette.]

NASHVILLE, Tenn., Sept. 4, 1862.

REBELLION.

The state of Ohio has been withdrawn from the North, Alabama and Southern Tennessee, and has been concentrated at a point south of this, which must, in the necessities of the war, be held by us. The rebels have moved northwardly from the Sequatchie valley to the mountains, and reached the high completely flanking this whole force. Like Pope, Bragg moves without any base of operation, or line of retreat, only he may now move to the south, and then he will be in the rear of our force. Our whole force were drawn up in line of battle at noon yesterday.

The captain of the steamer McDowell was

placed under arrest on his arrival here this morning. I have not learned the nature of the offense.

NEW YORK, Sept. 10.

The Times publishes Gen. Pope's report

of the recent battle in Virginia. He reports

the combat of the 1st and 2d Wisconsin

and the 1st and 2d Missouri.

He had compared his results with those

of the 1st and 2d Missouri.

He has made no comparison with those

of the 1st and 2d Wisconsin.

He has made no comparison with those

of the 1st and 2d Missouri.

Agricultural.

REMARKS ON SOME OF THE NATURALIZED PLANTS OF WHEAT, OATS, & CO. —With the settlement of every new country by civilized people, not only are new plants introduced into the country for the purpose of cultivation, but many for ornament, or some other purpose, in the wake of civilization. These plants and weeds, which rapidly take possession of the road-sides and waste grounds, are to be considered as weeds, and are liable to be persecuted by the Legislature.

The wheat of Illinois, although now and again settled, has received a fair share of the vegetable immigrants. Of the 1,400 species of cultivated plants recorded in Illinois, over 100 are introduced, of which have barely escaped, and are to escape, the notice of the collector. Numerous other kinds have become widely and, perhaps, becoming naturalized, and are to be considered as weeds, whether any of them may be used as vegetables. The *Snow Babysbreath*, or *Wooly Willow*, is record in the catalogue of the Illinois State Survey, and is to be considered as to distinction. The common *Lobelia (Physostegia)* is undoubtedly naturalized in the Eastern States, and there has been some doubt entertained as to whether they are really native in the West. The *Common Milkweed* is record in the catalogue of the Illinois State Survey, and is to be considered as to distinction. The common *Locust (Robinia pseudoacacia)* is undoubtedly naturalized in the Eastern States, and in the West, too, it is record in the catalogue of the Illinois State Survey.

Of the Nature order RANUNCULACEAE, the Garden *Larkspur (Delphinium consolida)* has sprung up in the Eastern States, and is to be considered as the naturalized form of a plant which is in common cultivation. Another plant of this Order, the *Yellow Archangel (Pulmonaria)*, or *Ground Buttercup*, or *Buttercup*, or sometimes *Yellow Daffodil*, has perhaps been introduced in a few places, but is not so common as to be considered as naturalized.

Of the Nature order CUCURBITACEAE,

the *Water Melon (Cucumis melo)* is record in the catalogue of the Illinois State Survey.

REVELATIONS OF THE CENSUS.—The following tables are compiled from the report of the Census.

POPULATION.—The white population in the whole United States and the territories in 1860 was 35,900,000.

With the white males and females in each state.

Excess of males.

In the following States the white female exceeds the male in number in the year 1860.

Excess of females.

Excess of males in the Western States, of which the following is a recapitulation:

Excess of males.

Alabama, 1,200,000 Females, 1,200,000

Arkansas, 1,711,000 Females, 1,711,000

Mississippi, 1,400,000 Females, 1,400,000

Tennessee, 1,400,000 Females, 1,400,000

Georgia, 300,000 Females, 300,000

South Carolina, 1,200,000 Females, 1,200,000

North Carolina, 1,200,000 Females, 1,200,000

Virginia, 1,200,000 Females, 1,200,000

West Virginia, 1,200,000 Females, 1,200,000

Oklahoma, 1,200,000 Females, 1,200,000

Wyoming, 1,200,000 Females, 1,200,000

Idaho, 1,200,000 Females, 1,200,000

Montana, 1,200,000 Females, 1,200,000

Utah, 1,200,000 Females, 1,200,000

Arizona, 1,200,000 Females, 1,200,000

New Mexico, 1,200,000 Females, 1,200,000

Colorado, 1,200,000 Females, 1,200,000

Illinois, 1,200,000 Females, 1,200,000

Iowa, 1,200,000 Females, 1,200,000

Michigan, 1,200,000 Females, 1,200,000

Wisconsin, 1,200,000 Females, 1,200,000

Minnesota, 1,200,000 Females, 1,200,000

Wisconsin, 1,200,000 Females, 1,200,000
